

## What should I already know?

- To look after the world and living things around me.
- To look after other people around me.
- That I have 5 senses to help me find out about the world.

## Our theme will be Natural Materials

## Key Vocabulary and definitions

Spinney	A small wood with undergrowth.
brook	A small natural stream.
natural	Something that is made by nature.
habitat	A place where an animal, mini-beast or plant lives.
species	A group of similar animals, mini-beasts of plants.
respect	Acting in ways to share care for others.
boundaries	The edge of where you are allowed to go - often to keep you safe.
explore	Using your senses to find out about a place.
reflect	Thinking about what you have seen, heard or experienced.
health and safety	Ways of behaving that keep us safe and healthy.
blade	A sharp edge on a knife or peeler.
fuel	Something that makes heat when it is burnt.
oxygen	A gas which we need to live and is needed by fire.

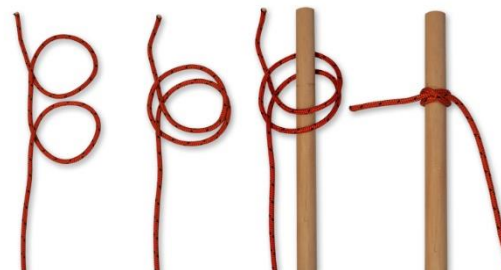

We will learn about what lives in the Spinney and explore the different habitats there.

We will use our imaginations to be creative and develop our teamwork.

We will develop self-confidence as we learn to look at risk and work safely.

We will learn how to do a clove hitch.

We will use peelers to whittle sticks and use a fire to toast marshmallows.

A Clove Hitch Knot – used to attach a rope to a stick or post.
