

## Year 5 Art – Space Art. Artist: Robert McCall

### What should I already know?

- A collage is made by putting layers of different materials to make an image.
- Prints can be made using printing blocks or found objects.
- Techniques which involve colour mixing include tint, shade and tone.

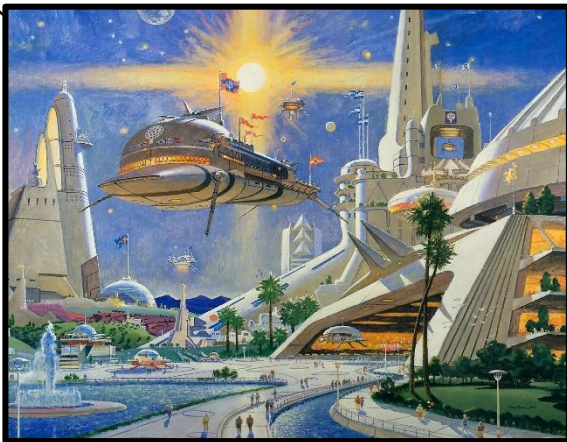

### About the artist

- Robert McCall was born in Ohio, America in 1919.
- He studied at an art school in and served in the Army Air Forces during World War II.
- He painted spaced images for magazines and films.
- He worked as an artist for NASA documenting the history of the Space Race.
- McCall's work can be found on U.S. postage stamps, and also NASA mission patches such as for Apollo 17. His murals grace the walls of the National Air and Space Museum, the National Gallery of Art.
