

What should I already know?

- Songs have repetition in them
- Songs often have a chorus and verses
- Songs are easy to learn and are recognisable because they have repeated sections

Key Vocabulary

Pulse a regular beat – like a heartbeat

Rhythm – a regular, repeated pattern

Repetition – something that is repeated

Chorus – part of a song that is repeated after each verse

Verse – a group of lines that form a unit within a song

Intro – the introduction to a song

Outro – the ending of a song

Key knowledge

Body Percussion can be used as effectively as instruments to compliment a song and to make clear the pulse and rhythm

The **pulse** of a song is like the heartbeat, a steady beat that continues the whole way through the song

Lyrics can be changed or added to a song that keep in time with the original **pulse** and **rhythm**

Technology can be used to create rhythms within a song
