

What should I already know?

- That I should look after the place I live in.

Key Vocabulary and Definitions

sustainability	The way we live on Earth to make sure that people, now and in the future, have everything they need.
crime	An action that is against the law.
environment	Everything around us - living and non-living.
pollution	Anything that makes the land, air or water around us dirty.
health and safety	Ways of behaving that keep us safe and healthy.
Reduce	To use less of something.
Reuse	To use something again.
Recycle	To change waste into a material that can be used again.

- We will learn about why people drop litter and what happens to the environment when we do.
- We will learn about the effect of litter on the land and the animals.
- We will litter pick the school environment and report on our findings.
- We will think of ways to persuade people not to drop litter in the future.

A Litter Picker

Waste - stuff that is used and finished with.

Rubbish - stuff that we no longer want and throw out.

Litter - rubbish that is thrown onto the land or into water
